

## CHAIN OF RESPONSIBILITY COMPLIANCE ARE YOU READY?

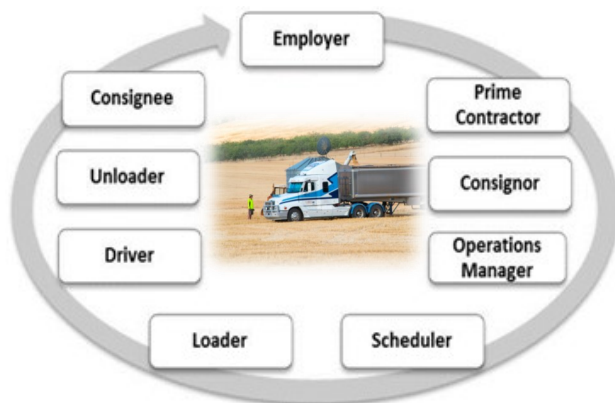

CoR can impact the company you work for and it can impact **YOU**. If you cannot demonstrate that you have done everything reasonably practicable to comply with legislation, **YOU** may be held accountable.

### Practical Steps to CoR Compliance Workshop

Specifically designed to guide and support parties in the grain supply chain through the process of achieving CoR Compliance.

- 👉 Do you hire trucks?
- 👉 Do you operate trucks?
- 👉 Do you pack containers?
- 👉 Do you schedule or co-ordinate transport?
- 👉 Do you engage transport contractors?
- 👉 Do you have any control or influence over transport activities?
- 👉 Do you load or unload transport?

If you have answered **YES** to any of the above, then this workshop is for you.

Program outcomes for this one-day practical workshop will include:

- ◆ Understanding of CoR and transport safety
- ◆ Practical guidance on how to reach CoR compliance as an Organisation, Executive Officer and /or an Individual

Learn how to:

- ◆ Write CoR Policies and have Procedures to manage CoR risk;
- ◆ Set up audit processes, employee induction, awareness and training; and
- ◆ Have systems to record / report performance and incidences.
- ◆ Understand the importance of a Safety Management System and how to implement SMS

#### Fees

Refer to the GTA workshop Registration Form for costs.

*The workshop will include a light lunch, resource materials and a Certificate of Attendance for your training records.*
