2016/17 Barley –VRSG Clarification

- The following images are issued as noted in GTA Member Update 20 of 16.
- These images are issued as a **GUIDE ONLY**.
- These are issued for clarity to assist industry with sample assessment for 2016/17 Barley.
- Storage Operators are responsible for their own sample assessment and receival standards.
- It is noted, the following images have been taken under harvest operational conditions and are not usual VRSG standard.
- However, due to time limitations and harvest operations they are being issued by GTA Standards Committee as a **GUIDE only** for 2016/17 harvest.
- Other grain defects may exist in addition to the defect outlined in each photo.
