

EXPLANATORY MEMORANDUM GTA LOCATION DIFFERENTIALS 2016/2017 SEASON

1. What is a GTA Location Differential

A Location Differential is the “value” attributed to a specific up country grain bulk storage and handling facility to an export port terminal facility by the GTA Commerce Committee for the purpose of valuing up-country grain on a ‘port bases’. The up country grain bulk storage and handling facility must be operated by a GTA Member.

2. Purpose

GTA Location Differentials (LDs) are widely used by the Australian grain industry to price “port based” contracts in particular the *GTA Contract No 2 Grain and Oilseeds in Bulk - Basis Track* commonly known as the “*Track Contract*”.

3. Commerce Committee

The GTA Commerce Committee is responsible for the development and ongoing review of the values used as the GTA LDs.

The 2016/17 Commerce Committee consisted of:

Guy Allen	Chair – GTA Director
Harry Notaras	GrainCorp Operations Ltd
Geoff Farnsworth	Holding Redlich / GTA Director
Darryl Borlase	ADM Trading Australia Pty Ltd
Nathan Cattle	NZX Australia
Rohan Crockett	Plum Grove Pty Ltd
Simon Gellert	Glencore Grain Pty Ltd
Lee Hodge	Emerald Group Aust Pty Ltd
David McKeon	GrainGrowers Ltd
Sam Napier	Cargill Australia Ltd
Harry Notaras	GrainCorp Operations Ltd
Rebecca Reardon	Grain Producers Australia (GPA) / GTA Director
James Roberts	Co-operative Bulk Handling Limited (CBH Group)
Belinda Turner	PentAg Nidera Pty Ltd
Lloyd George	AgScientia Pty Ltd

4. Location Differential Development Process

The following process was undertaken to set the GTA 2016/2017 Location Differentials:

4.1 Step One

Member Update 1 of 16 was circulated to members on 29 February 2016 calling for the nomination of new sites by GTA members and submissions outlining any issues with the current LD’s. Round 1 submissions were due 21 March 2016.

4.2 Step Two

The GTA Commerce Committee met on 7 April 2016 and reviewed all submissions and site nominations received in round one.

The Committee extended an invitation to members for a second round of submissions on 15 April 2016. Included in the second round invitation's were the approved amendments/additions from the round one submissions and the amended draft of the 2016/17 LD's. This was circulated as Member Update 6 of 16 on 15 April 2016. Round two submissions closed on 1st May 2016.

4.3 Step Four

The Commerce Committee met again on the 16 September 2016 and reviewed all round two submissions (6), Viterra Export Select rates and a draft of the 2015/16 GTA Location Differentials available at the time (QLD, NSW, VIC and SA). With no significant issues they were recommended to the GTA Board for approval and release to industry.

4.4 Step Five

The GTA Board met on 27 September 2016 and approved the 2016/176 GTA Location Differentials for QLD, NSW, VIC and SA and instructed they be released to industry.

4.5 Step Six

GTA Members will be advised of the release of the 2016/17 Location Differential's for QLD, NSW, VIC and SA once approved by the GTA Board. The LD's will be made available from the GTA website at this time.

The east coast rates were as approved by the GTA Commerce Committee and the SA rates were derived from the Export Select rates as provided by Viterra.

4.6 Step Seven

The 2016/17 GTA Location Differentials for WA are yet to be supplied to GTA. Once these are approved a Member Update will be circulated having been made available by respective Port Terminal Operators (PTO).

5. Effective date

Location Differentials for QLD, NSW, VIC and SA become effective on 1 October of each year.

The GTA LD's released for SA & WA are based off those released by Viterra and CBH through their Export Select Rates and Grain Express rates respectively and Bunge with respect for Bunge sites to Bunbury Port Terminal.

This does not preclude organisations from setting alternative dates as applicable to their commercial needs.

The WA LD's are yet to be provided to GTA.

6. Location Differentials ARE NOT freight rates

GTA releases Location Differentials each year to enable pricing of the *GTA No 2 Contract – Contract for grain and oilseeds in bulk delivered price basing point or port terms (Basis Track)* commonly referred to as the "Track Contract".

If they are used for other purposes this should be done in the knowledge that there may be a difference between the GTA Location Differentials and the actual cost of freight execution. This "freight price risk" or "freight basis" must be managed by commercial interests.

Members must adjust their port based pricing according to their analysis of the Location Differentials. The GTA Location Differentials are not published to be a substitute for management of freight price risk and the variation between the LD and the actual cost of execution of freight must be managed by the commercially.

7. Disclaimer

GTA relies on information supplied by Bulk Handling Companies (BHC's) at the time of development of the Location Differentials and therefore cannot guarantee the accuracy of the information contained in the LD's particularly in relation to mode of transport available.

Marketers should make their own independent enquiries with the appropriate BHC to verify the information contained in the GTA Location Differentials prior to making marketing decisions.

8. Changes to the GTA Location Differentials for 2016/17

The changes to the 2016/2017 GTA Location Differentials for QLD, NSW, VIC and SA are visible in the marked up tables below.

Where an amendment has been made to an LD or there is a new LD, this is indicated in **blue text** and accompanied by a brief explanation in the adjacent comments column.

Where a site or rate has been removed, this is indicated in **red text** and there is a line through it.

9. Special Notes

South Australia

- a. The GTA Location Differentials in South Australia are derived from the Viterra Export Select Rates provided to GTA;
- b. In 2010 it was agreed that the Committee adopt the same methodology that GTA employs for Qld, NSW and Vic for SA sites where a SA site is not owned by Viterra. Specifically, this would involve road distance to port of the particular site based on Google Maps based on the net tonnes per km rate for the nearest Viterra site adjusted for distance;
- c. SA sites with a port destination in an adjacent state use the same methodology employed in the destination state e.g. Victoria. There has been no change to these Location Differentials for 2016/17

Western Australia

- a. The GTA Location Differentials in Western Australia are derived directly from the CBH Grain Express Rates provided to GTA; without amendment.
- b. Metro Grain Centre (MGC) is no longer available as a grower Destination Site. Marketers still have the ability to transfer entitlement from Kwinana to MGC. All other non -standard movements may be requested via customersupport@cbh.com.au
- c. The Arthur River and Kukerin Location Differentials to Bunbury rates are supplied by Bunge Agribusiness Australia.

GTA Location Differentials 2016/2017 - QLD
Effective 1/10/2016
