

GTA MARKET NOTIFICATIONS

Notice No. 09 of 22— 31 October 2022

TOPIC: Sorghum exports to China - Provision of a list of Australian export registered establishments and Australian exporters exporting sorghum to China.

DISTRIBUTION: GTA Members – primary contact list. Please circulate to all appropriate internal parties

1. Status Update

Grain and Seed Export Program – Compilation of a list of **Australian export registered establishments and Australian exporters exporting sorghum to China.**

2. Summary of Changes and Key Points

The Department of Agriculture, Fisheries and Forestry (DAFF) received a request from the General Administration of the People's Republic of China (GACC) to provide a list of **Australian export registered establishments and Australian exporters exporting sorghum to China.**

GACC requested that a separate list be provided for:

1. Establishments packing sorghum grain for human consumption (Note: This includes sorghum for consumption (with the EXDOC Supp Code 'GC') and sorghum for processing (EXDOC Supp Code 'GP'),
2. Establishments packing sorghum grain for stockfeed,
3. Exporters of sorghum grain for human consumption (EXDOC Supp Codes 'GC' and 'GP'), and
4. Exporters of sorghum grain for stockfeed.

The DAFF Grain and Seed Export Program has compiled preliminary lists based on EXDOC KPI data from FY2018-19 to date, including the currently available data for FY 2022-23.

It is extremely important to provide complete and accurate lists to GACC to pre-empt any disruption to trade, therefore we would like to **seek your input to ensure all current and future exporters and establishments involved in exports of sorghum to China are included.**

3. Application Process

If you have been exporting sorghum to China for consumption, processing and/or stockfeed, or **intend** to do so in the near future, and would like to be included in the list(s), please send the following details to the Grain and Seed Export Program at Grain.Export@agriculture.gov.au with the email title **“Sorghum exports to China - <exporter / establishment name>”**:

Export Registered Establishments

- ER establishment number
- Name of establishment (as per your Certificate of Registration)
- City
- State
- Which product (sorghum for consumption or sorghum for stockfeed) you export / intend to export to China

Exporter

- EXDOC exporter number
- Name of company (as per your EXDOC registration)
- City
- State
- Which product (sorghum for consumption or sorghum for stockfeed) you export / intend to export to China

If you wish to be added to the list(s) for exporting sorghum to China, please provide the requested information to Grain.Export@agriculture.gov.au by **Friday 11 November 2022**.

Please contact the Grain and Seed Export Program if you have any questions.
