1. Purpose

This Industry Advice Notice (IAN) is to notify stakeholders of updates to the DAFF Export Documentation System (EXDOC)

2. Key points

- EXDOC was enhanced on 17 July 2022 to allow one Request for Permit (RFP) to be lodged for grain consignments where some products require a phytosanitary certificate and others no certificate (NC1).
- Previously, when users raised an RFP with some products requiring a certificate and others requiring no certificate, EXDOC would set the print indicator to N, preventing the system from issuing a certificate for any products.
