No. 5 of 20 Industry Advice Notice—Grain and Seed Exports Program—Phosphine as quarantine treatment for Australian malting barley to India

DISTRIBUTION: GTA Members – primary contact list. Please circulate to all appropriate internal parties.

Australian Government
**Department of Agriculture,
Water and the Environment**

This Industry Advice Notice (IAN) from Department of Agriculture, Water and the Environment is to advise that the Indian Plant Protection Organisation (NPPO) has approved phosphine fumigation as an additional treatment option to the current mandatory methyl bromide fumigation for Australian barley exported to India.

Please read full notice on DAWE website:

[2020-23 - Grain and Seed Exports Program – Phosphine as quarantine treatment for Australian malting barley to India](#)
