The Consultation Team  
Proposed changes to regulatory charging for biosecurity activities  
Department of Agriculture, Fisheries and Forestry  
PO Box 6021 Canberra City ACT 2601

Lodged via: Email: [BioCris@agriculture.gov.au](mailto:BioCris@agriculture.gov.au)

Dear Sir/Madam

## **RE: Proposed Changes to Regulatory Charging for Biosecurity Activities**

### **1. Introduction**

Thank you for the opportunity to provide input on the proposed changes to regulatory charging for biosecurity activities. Grain Trade Australia (GTA) and its members have an interest in the Department of Agriculture Fisheries and Forestry (DAFF) fees and charges for biosecurity activity as significant amounts of plant-based protein meal is imported into Australia, as well as imported grain during times of severe drought. The grain industry is also charged fees under the same cost recovery mechanism through the (Plant) Agricultural Export Cost Recovery (ECR) charges. GTA is also aware the ECR for the Plant sector is about to undergo a similar review during 2023.

### **2. About Grain Trade Australia (GTA)**

GTA is a national association and is the focal point for the commercial grains industry within Australia. The role of GTA is to provide a framework across Industry to facilitate and promote the trade of grain. GTA facilitates trade and works to provide an efficient, equitable and open trading environment by providing leadership, advocacy and commercial support services to the Australian grain value chain. GTA Members are responsible for over 95% of all grain storage and freight movements made each year in Australia. Over 95% of the grain contracts executed in Australia each year refer to GTA Grain Trading Standards and/or Trade Rules.

GTA has established the Australian Grains Industry Code of Practice. All GTA Members are required to adhere to the Code of Practice. GTA Members are drawn from all sectors of the grain value chain from production to domestic end users and exporters. GTA has over 270 organisations as Members. Their businesses range from regional family businesses to large national and international trading/storage and handling companies who are involved in grain trading activities, grain storage, processing grain for human consumption and stock feed milling. A list of GTA Members is [here](#) and attached.

### **3. Government Cost Recovery for Grain**

Grain importers and exporters are charged fees on a user pays/cost recovered basis for the DAFF government services that are utilised when exporting and importing grain. This cost recovery (regulatory charging) falls within the Australian Government Charging Framework.

This form of regulatory charging has been a long- standing practice for Government as the import and export regulatory activity is provided to clearly identifiable organisations (i.e., grain importers/exporters), that participate in the plant import/export supply chains. DAFF's website explains "*that if it were not for the business activities of these groups, the regulatory activities would not be required*".

The grain industry has accepted this regulatory charge on this basis; however, it has always been understood that DAFF (i.e. Government) **should be accountable to industry** for the efficient use of these funds (via the Grain and Plant Products Export Industry Consultative Committee ([GPPEICC](#))) and the funds should only be utilised for the purpose on which they are collected or for the benefit of the group (i.e. grain importers & exporters) from which they were charged and collected.

GTA is concerned DAFF have struggled to provide industry via the GPPEICC a timely and adequate financial report of the ECR. We have been advised this was due to DAFF cost reallocation processes associated with the “change of machinery of Government” structures (i.e., splitting Water Resources and Environment from DAFF). This raises concerns within industry around the potential for the cost allocation process to distribute a disproportionate level of DAFF costs (i.e., indirect costs) to the Plant ECR, given the surplus in the Plant ECR following three seasons of record grain exports.

Allocation of indirect cost within any business or organisation is challenging. GTA is concerned with the level of transparency of the current DAFF allocation process. We note from the ‘*Proposed changes to regulatory charging for biosecurity activities Consultation paper*’ the import biosecurity sector’s total **indirect** cost is approximately **30% of its total cost** as compared to the Cost Recovery Implementation Statement (CRIS) for the **plant export sector where 63% of the total cost** is made up of the allocation of indirect costs. This raises questions as to proportional allocation of costs between import and export programs, as well as across various commodity groups (e.g., grains, meat, dairy, horticulture).

#### **4. Service Provision – Cost to serve.**

After several years of severe drought, the grain industry has seen some of the best seasons of production and consequently exports. As a result, at the November 2022 meeting of the GPPEICC Finance sub-committee it was noted the grain 2021/22 ECR program had exceeded budget by \$4.6m (153 %) due to strong exports which resulted in moving from a budgeted net deficit of \$3m to surplus of \$1.6m, leaving a program balance of around \$355K for 2021/22.

Based on the current CRIS and large export program to date and expected for the remainder of 2022/23 a similar operating surplus can be anticipated by the end of the 2022/23 financial year (FY) (i.e., 30 June 2023). The export program in 2023/24 FY is also expected to remain strong due to large carryover stocks and large production from the 2023 season meaning the surplus in the plant ECR will likely be around \$3.5-4.5m.

GTA is concerned the surplus funds in the plant export ECR are at risk of being absorbed by a disproportionate reallocation of DAFF’s in-direct cost base, i.e., grain exporters will in effect be taxed to cross subsidise other agricultural sectors and potentially the government itself, contravening the “user pays” principle of the ECR. Such a situation is not acceptable to GTA Members.

#### **5. Conclusion**

GTA and its members wish to bring the issues of:

- i. Government should be accountable for the efficient use of industry funds.
- ii. The appropriation and allocation of cost and the accounting for each sector is important.

It is important this reform process does more justify an increase of the fees of the ECR. It should have a focus of providing industry the services that they require and have been effectively paid for through regulatory charges. Importantly this reform should also consider investment in strategic and transformative projects to create efficiency and improve the DAFF capability to meet current and future biosecurity and trade challenges.

Thank you for your consideration of these issues and we remain available for discussion on any of the above and any other grain industry issues.

Yours faithfully,

Pat O'Shannassy  
**CEO, Grain Trade Australia**
