

This Special Webinar for GTA Members on the new insolvency regime that is set to commence from 1 January 2021 is brought to you by GTA, HFW and Grant Thornton.

Special Webinar - 10 November 2020 - 2pm (AEDT)

**Are you buying or selling grain or use grain contracts?
Understanding your risks is the key to Risk Management**

This Special Webinar will help GTA members to:

- Raise awareness of a new insolvency regime set to commence from 1 January 2021, replacing the temporary insolvency measures introduced during COVID-19 (which expire on 31 December 2020)
- Understand how eligible companies may be able to continue trading while insolvent and restructure existing debts, whilst remaining under the control of the company directors.
- Start considering how best to safeguard their businesses now, so that when the temporary insolvency measures introduced during COVID-19 expire on 31 December 2020, they are well placed to deal with creditors / debtors.
- Understand about a moratorium on enforcement action against the company by unsecured and some secured creditors.
- Understand why personal guarantees may not be enforceable against a director or relative and a protection from ipso facto clauses (so creditors can't terminate ongoing contracts).
